In order to increase transparency and to improve the information offered to the public, the Kosovo property Agency (KPA) has started to make photos of all claimed properties available on the Agency's web page.

The pictures of the claimed properties are being published as soon as the properties have been visited by a KPA notification team. The KPA notification teams visits all properties claimed with the KPA and make pictures of the claimed properties. This new feature offers a unique opportunity for claimants to get an impression of the current status of the claimed property. Many claimants have not been at the property after 1999, but by visiting the KPA web page [www.kponline.org](http://www.kponline.org) they can see pictures of the property taken in 2008 or 2007.

In addition to the pictures of the claimed properties, the KPA also publishes a map sketch and technical data of each claimed property at its web page. At the same page you can also follow the development in the processing of each claim, and find out what is the current status of the claim.

"I encourage claimants to visit our web page and check the pictures of the property they have

claimed with the KPA. If they believe that the pictures show a different property than the one subject to their claim, then they should immediately contact a KPA office, says Mr. Lars Olsen, Head of the Information Unit at the KPA. He also believes that the pictures could be useful for potential respondents to KPA claim. "Hopefully the published pictures will be of help if you want to find out if someone else has filed a claim for a property you believe you have rights to", says Olsen.

The pictures of the properties claimed with the KPA can be accessed by visiting the web page

[www.kpaonline.org](http://www.kpaonline.org).

(1) In the search field you should enter the 5 digit KPA-number (KPXXXXX) of the claim you wish to see pictures of, (2) choose "KPA claims" and (3) click the search button.

### Kosovo Property Agency

The KPA was established on 4 March 2006 by UNMIK Regulation 2006/10 which was later superseded by UNMIK Regulation 2006/50. The KPA has, subject to appeal to the supreme court of Kosovo, exclusive jurisdiction resolve claims for private imovable property arising from the 1998-1999 armed conflict.

## A challenging start of the year

Nearly 40 thousand claims have been submitted to KPA. Around 200 villages was visited during the KPA bus campaign throughout Kosovo. And senior KPA management held meetings with presidents of the five municipalities which accounts for almost half of the total number of submitted claims. These are only few of the important elements that have characterized the KPA during beginning of the year 2008.

We have earlier stressed that the number of submitted claims to KPA nearly four times higher than expected and foreseen. This high number of claims clearly illustrates that there is still a lot of uncertainty related to the title of properties in Kosovo. It also represents a challenge for the Agency, because all these claims will need to be processed in a timely and professional way, without any mistakes, and the Kosovo Property Claims Commission needs to decide upon all this cases by applying the applicable law and make fair decisions.

When the KPA bus campaign was launched in December 2007, only few believed that KPA teams would manage to visit 200 villages throughout Kosovo, and meet with citizens of all communities, different ages and gender in order to explain the mandate and work of KPA as well as the importance of participation in the process of all parties who claim to have an interest in a specific property. So today, when we have completed this campaign, we are convinced that more people in Kosovo know about KPA, and more people have expressed their wish to cooperate with us in the important work of resolving the property disputes in Kosovo. The meetings KPA had with the presidents of the municipalities of Pejë/Pec, Istok/Istog, Ferizaj/Uroševac, Klinë/Klina and Prizren in January of this year further confirmed the commitments made by the leadership in the municipalities to cooperate

Based on the above mentioned, we can conclude even now at, the very beginning of this year, that Kosovo Property Agency has many challenges to face and a lot of work to be done during the year of 2008.
